Lab Report Cover Sheet

In the spaces below, answer the following questions using complete sentences and proper grammar.

1) What was the purpose of this lab exercise? (i.e., "In this experiment I verified Snell's law.")

2) Give a short statement of your findings. (i.e., "I discovered that...")

3) Give a short summary of the procedure you followed.

4) What degree of accuracy you were able to achieve in your work? (i.e., "I verified that the angle of incidence equals the angle of reflection to within an experimental accuracy of 2%.")

5) What are the possible sources of random error? (i.e., "The error in the result arises from an inability to accurately measure...").
