

Space Commercial

Student Worksheet

Materials

desired food
video camera
box
contact paper
markers
crayons

Procedures

1. Pick a food that you will make a commercial for. Keep in mind that your food will be used in space by an astronaut.
2. You are to either:
 - a. Make a video by yourself or with 1 or 2 members of the class. Keep in mind it must be 2 minutes in length. You are selling this product so you need to persuade the viewer to buy it.
 - b. Use a box and make a TV. Use a roll of contact paper to make your screen. You can draw the different scenes on the paper, but do not remove the backing. You will need to record on a tape recorder the audio part of your commercial. You will unroll the paper of each scene of your commercial.

*This project is worth 1 science grade and 1 language arts grade.

**When making these be creative, use props, music, sound effects, have fun!!
